Summary of Experience

Experience in Laravel framework
Web Development
Mobile Development
UI/UX Design
System Prototyping
Augmented Reality Development

Tech Stack

PHP(Laravel)
HTML
CSS(Bootstrap)
JavaScript
React JS, React Native

Objective

Motivated and adaptable Frontend Developer with hands-on experience in developing software applications and a strong interest in front-end development. Eager to apply my growing skills in HTML, CSS, JavaScript, React JS, and responsive design to contribute to dynamic projects. Always willing to learn, grow, and undergo training to enhance my expertise in front-end technologies and deliver high-quality user experiences. Seeking an opportunity to collaborate with a forward-thinking team where I can expand my skill set and add value through continuous improvement.
